Attached are OL comments relative to ordnance, storage, and transportation problems which might be caused by the Explosive Taggants provision in the proposed Senate Bill -- An Act to Combat International Terrorism. It is suggested that you may want to solicit comments from SOG with regard to the impact that this bill might have on special operations.

It is hoped that the Senate staffers could prepare a list of specific questions of interest with regard to the effect on CIA of this proposed act. Absenting specific questions, OL will be happy to nominate a representative to discuss shipping and storage impact. It is suggested that an SOG representative address the Agency's position relative to operational utilization and deployment.

A copy of this note, the attached OL comments, and the draft act have been forwarded to SOG.

Copy also sent to C/SOG
